# Sponsorships are Needed!

The **Woodside One Wheelers** are looking for sponsors to help keep our group going strong. Your sponsorship helps defray costs associated with the necessary uniform and equipment and offset travel costs for our performances- locally and nationally! Safety is at the top of our concerns for our performing members. All riders **MUST** wear an approved helmet, proper wrist, elbow and knee pads during practices and performances. We don't turn away kids due to a lack of funding. We help our families get what they need for the member and the family gives back by donating some of their time during local fundraising events.

**Stunt Rider \$200** Defying physics and making jaws drop with some seriously impressive tricks. Jumping, riding on a slack-line, juggling, solving a rubik's cube, and doing the *Macarena* are just a handful of the tricks that we do. Not content to just ride a unicycle, our experienced stunt riders are constantly challenging themselves by coming up with new ideas.

**Unicycler \$150** The goal everyone wants to meet from day one. Getting to this point takes hard work, many hours of practice, and getting back up and trying again after hundreds of falls.

**Juggler \$100** A skill that ALL of our performing members at all levels are constantly polishing and improving and need to be able to do.

**Plate Spinner \$50** The first skill new WOW members learn- it's easy to pick up and allows members to be able to perform with the team quickly. No one gets left out!
